T-NEX 1 AQ *Plant Growth Regulator*

Containing the same active ingredient as PRIMO MAXX; T-NEX will make your course greener and reduce the number of mowings, saving labor, fuel, and time. Additionally, T-NEX is the perfect pre-stress conditioning choice for the coming season.

- ▶ Improves rich color, lateral stems and root mass development
- ▶ Inhibits vertical shoot growth
- ▶ Helps produce healthy, durable blades in turfgrass
- ▶ Helps turf withstand the seasonal stresses
- ▶ Odorless micro emulsion concentrate

Formulation

11.3% microemulsion
(1 lb a.i./gallon)

Active Ingredient

Trinexapac-ethyl:
4-(cyclopropylhydroxymethylene)-3, 5
dioxocyclohexanecarboxylic acid

Equivalent Brand

Syngenta Primo MAXX

Packaging

2 x 2.5 gallon jugs/case 41.5 lbs
(36 cases/pallet)

Mode of Action

Slows production of gibberellic acid, a hormone that promotes cell elongation in plants

Signal Word

Caution

Label and MSDS

Product Brochure

EPA Reg. Number

73220-12
