6-20-6

Liquid Fertilizer

About 6-20-6:

- 6-20-6 is a combination organic/synthetic fertilizer produced from sea kelp, soluble organic matter, and standard chemical fertilizers.
- It's an excellent source of available phosphate.
- It's best-suited for high-nutrient applications like turf installations and golf course maintenance.
- 6-20-6 provides high-dose nutrients as well as support for soil health and structure.

Mixing Instructions:

When mixing with water, fill container halfway, then add product and the remaining water.

Gallon Mix: While agitating the solution add 3 fluid ounces of 6-20-6 to 1 gallon of water.

Tank Mix: While agitating the solution, add 1 gallon of 6-20-6 to 50 gallons of water.

Directions For Use: Shake well before use. Do not store diluted.

Shelf life is 2 years from date of purchase.

Application Rates

Apply 50 gallons of 6-20-6 mixture per acre. (40 ounces per 1,000 ft²)

Agricultural: Use the 6-20-6 tank mix instructions and apply before planting season and throughout the growing season as needed.

Germinating Seeds: Use the 6-20-6 gallon mix instructions, and apply after you have your seeds sown. If seeds need to be soaked, use the 6-20-6 mixture.

Turf/Lawn: Use the 6-20-6 tank mix instructions and apply monthly during growing season and again in late fall.

Nursery/Greenhouse: Use the 6-20-6 gallon mix instructions and apply up to four times a year.

Guaranteed Analysis:

Total Nitrogen (N)..... 6.0%

6.0% Ammoniacal Nitrogen

Available Phosphate (P₂O₅)20.0%

Soluble Potash (K₂O)6.0%

Derived from: Aqua Ammonia, Phosphoric Acid, and Potassium Hydroxide

ALSO CONTAINS NONPLANT FOOD INGREDIENT:

9.87%Humic Acid (Derived from Leonardite)
